RECOMMENDATION LETTER

As a production crew booking service, we have used Taras multiple times over the years.

Most recently he was the camera operator and on the ground producer for one of our clients that is a very high profile TV show in the United States that has been on the air for 20+ years.

Taras not only did an excellent job with his camera work and producing, he went above and beyond when the shoot plan hit some unexpected problems (on the show's end) on the day of the shoot.

Taras not only adapted quickly to the changes, he helped the show quickly find a different location in Moscow and helped place the guest (a non-professional) at ease with the sudden changes. Most importantly, my client was extremely pleased with how the footage looked from everything he shot.

I would definitely recommend Taras for anything you may have as my experience with him as always been a positive one.

Best Regards,

David Henthorne
